

Altra Motion provides a wide range of standard products in stainless steel to enhance customers' abilities to meet their sanitation challenges. Enclosed gearing, motors, clutches, bearings and coupling products are all designed to stand up to common washdown procedures. Most of the offerings shown here are standard in stainless steel, while a few offer stainless as an option.

Helical Worm Aseptic Gear Motor
by Bauer Gear Motor

(SS BG 50) .55 to 3.0 kw

Stainless Steel Mounted Bearings
by Boston Gear

Synthetic lip seal with stainless steel. Pre-filled with NSF H1 food grade grease. Cast stainless steel housing. Laser marked. M6 grease fitting.

Stainless Steel L-Jaw Coupling
by TB Wood's

Coupling available in sizes 075, 095, 10, 150.

Magnetic Capping Headsets and Chucks
by Warner Electric

These screw capping headsets utilize smooth torque magnetic technology and are drop-in replacements for most OEM capping headsets. Replacement chucks and knives also available.

Stainless Steel Clamping Collars
by Boston Gear

SSC/CSSC/2SSC Series. 1/8 to 2 inch bores. Set screw or clamping types.

Pin and Block Coupling
by Boston Gear

Stainless Steel Universal Joints. Boston Gear precision machined JS Series Universal Joints are designed for connecting shafts at angles up to 30 degrees and speeds up to 2000 RPM. 3/16 to 2 inch bores.

Stainless Steel MC/MB Clutches
by Warner Electric

Permanent magnet mechanical clutches and brakes provide smooth torque control. (Left: WE MB4S 1 Right: WE MC3S 38)

Beam Couplings
by Huco

Zero backlash single piece couplings available in six beam (two stage), three beam (single stage), and single beam models. Units provide an excellent combination of radial flexibility and torsional stiffness. Torque capacity from 221 lb.in. to 1,239 lb.in.

Stainless Steel Oldham Coupling
by Huco

General purpose, easy-to-use 3 part coupling with replaceable element set screw or clamp type mounting.

**700 Series Stainless Steel
Speed Reducer
by Boston Gear**

SS700 unique stainless steel design carries NSF International Certification. SS700 is designed to enhance sanitation programs with an easy to clean design. Single and double reduction gearbox available.

**SS 2000R Stainless Steel
Helical Bevel Gearbox
by Boston Gear**

Two case sizes. 5.6:1 to 143:1 ratio range. C-Face or IEC flange mounting.

**Stainless Steel Motor
by Boston Gear**

230/460 3 Phase motors. UL/ULc/CE certified. TENV to 1HP. TEFC 1 HP to 10HP. Stand alone or assembled to SS700, SS700 double reduction, SS2000R or SS2000I gearboxes.

**700 Series Stainless Steel
Double Reduction
by Boston Gear**

100:1 to 3600:1 ratios. Five standard center distances. Same Original Domed Crown as single reduction units.

**SS 2000 Inline Helical
Gearbox
by Boston Gear**

Three case sizes. Double or triple reduction options. 3:1 to 193:1 ratios available. C-Face or IEC flange input.

**Huco Flex P Coupling
by Huco**

Light duty, high flexibility designs. Speeds up to 3000 RPM. Torque capacity to 159 inch pounds.

**Curved Jaw Coupling
by Guardian Couplings**

Guardian Curved Jaw Couplings can be special ordered with stainless steel hubs. Bores 2-3/8.

**Form-Flex® Flexible Disc
Coupling
by TB Wood's**

High capacity flex disc coupling. 4 or 6 bolt designs optional in stainless steel. Stainless components and fasteners.

**Huco Flex K Coupling
by Huco**

Bellows type coupling. High speed capacity to 15000 RPM. Optional stainless steel.
