# Altra Motion Wichita Falls Rebuild Center

Altra Motion can rebuild your old worn out brakes for less cost than the replacement of a new assembly, including both Industrial Clutch and Wichita Clutch Brands

**NEW**

- **Cost Effective**

Cost effective alternative to brake replacement

- **Fast**

Faster than acquisition of new brake assemblies

- **Comprehensive**

Includes all common wearable and integral items

- **As-New**

Refurbished to as-new condition with a full warranty

Altra keeps most replacement and spare items in-stock. This results in shorter turnaround time than typically associated with new units. Shorter turnarounds can make shutdown planning easier.

Altra inspects all consumable wear items to determine if replacement is necessary. Integral metal parts, such as cylinders and pistons, are inspected for scratches or signs of wear that can cause leakage or premature failure of other common wear items.

After inspection, units are refurbished to original condition. The same testing that is performed on new units is conducted on all refurbished units to guarantee that they are returned in like-new condition.

Unless otherwise informed during teardown and inspection, Altra will replace all known wear items and warranty these under our standard terms and conditions.

***For more details on the rebuild program, please call 940-723-3400 or email us at [wichita.info@wichitaclutch.com](mailto:wichita.info@wichitaclutch.com)***
