

POWER TRANSMISSION COUPLINGS

Now available
from stock in Europe
with 2-3 day
bore and key service

FLEXIBLE COUPLINGS

TB Wood's **Form-Flex®**

Available in carbon steel, stainless steel or with corrosion resistant coatings.

- No maintenance
- Zero backlash
- Close couple, spacer and floating shaft designs available
- Easy interchangeability

TB Wood's **Dura-Flex®**

- Easy to assemble/replace
- High misalignment ratings, up to 4 degree angular and 1/8" (3.2mm) parallel
- No maintenance/lubrication
- Part-for-part interchangeable with industry standard design
- Good chemical resistance
- Better environmental field performance than competitors
- Better resistance to hydrolysis effects and humidity

Bibby **Grid Couplings**

- Up to 169 kNm; 1,500,000 in.lbs.
- Easy to assemble/replace
- Part-for-part interchangeable with industry standard tapered grid coupling designs
- Shot-peened tapered grid flex element for long life

TB Wood's **Sure-Flex Plus®**

- 30% Higher Torque Rating
- Lasts over 3X longer than competitors
- Many common applications can now use a smaller size coupling
- Quick and easy installation
- Spacer, bushed hub, and clamping hub designs in stock
- Flexible design accommodates misalignment and protects equipment
- Up to 8,20 kNm; 72,480 in.lbs. with Hytrel sleeve
- Needs no lubrication, no maintenance

Bibby **Series III Gear Couplings**

- Up to 147 kNm; 1,300,000 in.lb.
- Fully-crowned gear teeth provide maximum contact at the strongest part of the tooth.
- Models available for use on vertical and/or horizontal shafts
- High torque to weight ratio
- Half per half interchangeability with other gear couplings manufactured to AGMA standards
- Single, Double and Rigid designs available
- $\pm 3/4^\circ$ angular misalignment capacity per gear mesh
- Positive-type O-ring seals keep lubricant in and contaminants out

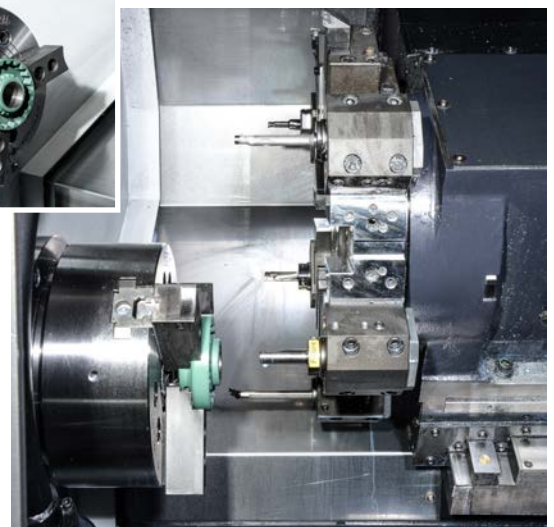

- Local Technical Support
- Product Availability Ex-Stock
- Breakdown Support
- Express Bore And Keyway Service

BORE AND KEYWAY SERVICE
