

Warner Electric Markets and Products

WARNER ELECTRIC IS RECOGNIZED AS A GLOBAL LEADER IN ELECTROMAGNETIC CLUTCH AND BRAKE TECHNOLOGY.

Warner Electric offers the broadest range of standard, modified and custom-engineered solutions for brake, clutch and linear actuator applications in many industrial markets.

With over 70 years of experience, the Warner Electric brand name provides cost-effective power transmission solutions for applications in diverse industries including elevators, forklift trucks, medical, cranes, medical, printing, transportation and renewable energy.

QUALITY

As market leaders, Warner Electric continuously invests in people, technology and processes. The company has four manufacturing facilities, one located in France and two in the USA. All three plants are registered to ISO 9001:V2000 ensuring that product design and development, manufacturing and service are of the highest standard.

Our refined manufacturing processes and quality supply chain partners enable us to provide cost-effective products that continually meet or exceed customer expectations.

TESTING & RESEARCH

We offer the capability to produce prototype units for testing and evaluation by clients or using our own computer-controlled testing equipment to simulate the operating conditions of a specific application while shortening product development cycles.

ENGINEERING AND APPLICATION EXPERTISE

A dedicated team of market-focused engineers and a technically superior manufacturing staff work together to provide customers with high-quality, application-specific power transmission solutions.

We utilize the “voice of the customer” during design and development which helps to ensure that our products meet the customer’s precise specifications and performance requirements.

GLOBAL SALES AND TECHNICAL SUPPORT

As part of the Altra Industrial Motion family of power transmission companies, Warner Electric provides sales and technical support in over 70 countries around the world.
