Turboflex Repair Service

Turboflex repaired couplings look like new, perform like new and are warrantied like new

For more information call +44 (0) 1924 460801 or visit www.bibbyturboflex.com.

The Turboflex Repair Team will conduct a comprehensive inspection of your coupling and perform the following to restore your coupling to its original specifications with a new coupling warranty:

- All potential wear components – metallic elements, shims, and fasteners are replaced with new, in addition to other components as required.
- Magnetic Particle Inspection (MPI) on all torque transmitting components.
- Removal and repair of surface defects while maintaining original coupling integrity.
- Precision dimensional and Total Indicator Run-out (TIR) measurement
- Rebalancing to original standard with applicable certification including API 671

Turboflex's Repair Service can refurbish your old, worn couplings for substantially less than the cost of a new replacement. The economical rebuild service applies to all Altra couplings including Turboflex, Torsiflex and Ameriflex high performance, high speed couplings used primarily on turbomachinery, compressor and pump applications in the power generation, oil & gas and marine industries. Other coupling brands are accepted on a case-by-case basis.

As a leading global coupling manufacturer, Turboflex has the team, facilities, and more than 100 years of inspection and repair experience to rebuild and replace all coupling components as required. Repairs are completed to meet the exacting standards of the original coupling.

Couplings are received, inspected and rebuilt in the shortest possible time frame. We will work to accommodate your shut down schedule.

For details on our cost-saving program call +44 (0) 1924 460801 or contact us by email at repairs@altramotion.com.
