Electrically Operated Bell Housing Clutch

NEW

Remote Operation

- Easier and safer to operate than lever actuated clutches.
- 12V, 24V, and 90V coils stocked - custom winds available.
- Does not require air or hydraulics to operate.
- Clean install - two lead wires connected to single plug.
- Internet-of-things capable.

Retrofit Existing Manual Clutches

- Sizes available for most SAE bell housing and flywheels.
- Hubs designed to fit common tapered shafts.
- Custom hubs available to fit most applications.
- Utilizes existing drive ring, bell housing, and shaft.

Typical Clutch Sizing and Fitment
