# Warner Linear B-Track K4x

Rugged Duty Actuator

**NEW**

## Strengthened Structure for Higher Load Capability

**The K4x model provides the  
highest load rating in its class!**

The K4X model is based on the proven K2X actuator with strengthened structure for higher load capability. Incorporating the K2X features, with a larger ball screw and reinforced gearbox it is able to push and pull 4,000 lbs (17760 N) force dynamically and is rated for up to 5,000 lbs (22000 N) static holding. Thanks to an efficient thrust bearing arrangement it can reach these forces with a limited increase in power consumption compared to the K2X.

## Warner Linear B-Track K4x

# Rugged Duty Actuator

## DC Motor Ball Screw

**Up to 4,000 lbs. (17760 N) Rated Load**  
**0.32 in. (8.1mm)/sec. Travel Speed**

### Features

- Protective coatings and O-ring seals throughout
- Integral load holding brake
- Ball detent overload clutch
- Stroke lengths 2 to 24 inches (50 to 600 millimeters), up to 42 inches (1066 millimeters) possible. Consult factory.
- Load capacities up to 4,000 pounds (17760 N)
- Speed 0.32 inches (8.1 mm)/sec. travel at full load
- Heavy wall construction
- Double ball bearing motors
- Heat treated gears
- Rugged extension rod bearing support
