

Stromag is a globally recognized leader in the development and manufacture of innovative power transmission components for industrial drivetrain applications.

Stromag's extensive product range includes flexible couplings, disc brakes, geared cam limit switches, an array of hydraulically, pneumatically, and electrically actuated brakes, and a complete line of electric, hydraulic and pneumatic clutches.

Clutches & Brakes

An array of electric, hydraulic and pneumatic clutches and brakes are available that feature extended product life and reduced maintenance.

Couplings

Highly flexible couplings developed for a range of applications. Offset, plug-in, multi-segment, universal and support coupling types are available.

Disc & Hydraulic Brakes

Emergency fail-safe braking by spring application with a compact design.

Drum Brakes

Maintenance free, self lubricated bushes at main hinges and sliding joints. Brake shoe auto-aligning device and easy to change. Galvanized steel spindles and hinges. Automatic wear compensation.

Hydraulic Power Pack

Designed to be associated with SHD monospring calipers. Allow adjustable and progressive application of the braking force with non-application of the full braking force at beginning of the braking.

Industrial Disc Brakes

Fail-safe brakes, spring-applied, electro-hydraulic thruster released. Robust construction brings to these brakes reliability, long life and safe operation.

Geared Cam Limit Switches

Universal mechanical switching devices which present a large number of input shaft revolutions on the rotation angle of one single revolution of the cam discs. Applications include lifting, travelling and slewing gears of cranes, wind power stations, & bucket elevators.

Rotor Brakes

Reduces time required for the maintenance intervals. The screwed end stop allows changing the lining pads quickly and without dismantling the complete brake system. Flexibility through modular design.

Spring-Applied Brakes

Robust, reliable design. Enables connection and disconnection of ancillary equipment.

Yaw Brakes

Easy and fast lining change. Easy wear check via feeler. Assured assembly of lining pads (Poka Yoke)

Everything Altra

From the Altra homepage you can connect to all of our brands, and visit our market portals to find solutions for your specific needs.

www.altramotion.com

We are a leading global designer and manufacturer of quality power transmission and motion control products utilized on a wide variety of industrial drivetrain applications.

Altra clutches and brakes, couplings, gearing and PT component product lines are marketed under 22 well known manufacturing brands that have each been in existence for over 50 years. Operating independently, each of these companies is committed to the guiding principles of operational excellence, continuous improvement and customer satisfaction.

Highly-engineered Altra solutions are sold in over 70 countries and utilized in a variety of major industrial markets, including food processing, material handling, packaging machinery, mining, energy, automotive, primary metals, turf and garden and many others.

Get Connected

The Altra Newsroom makes it quick and easy for you to get the news you need when you need it. From new literature releases to trade show schedules, the news is at your fingertips 24 hours a day.
