Spiral Conveyor

Boost Efficiency with Durable
Spiral Cage Systems That Keep
Operations Running

Bakery Saves
\$1.23 Million

PER SPIRAL OVER 5 YEAR PERIOD WITH
OPTIMIZED POWERTRAIN SOLUTION*

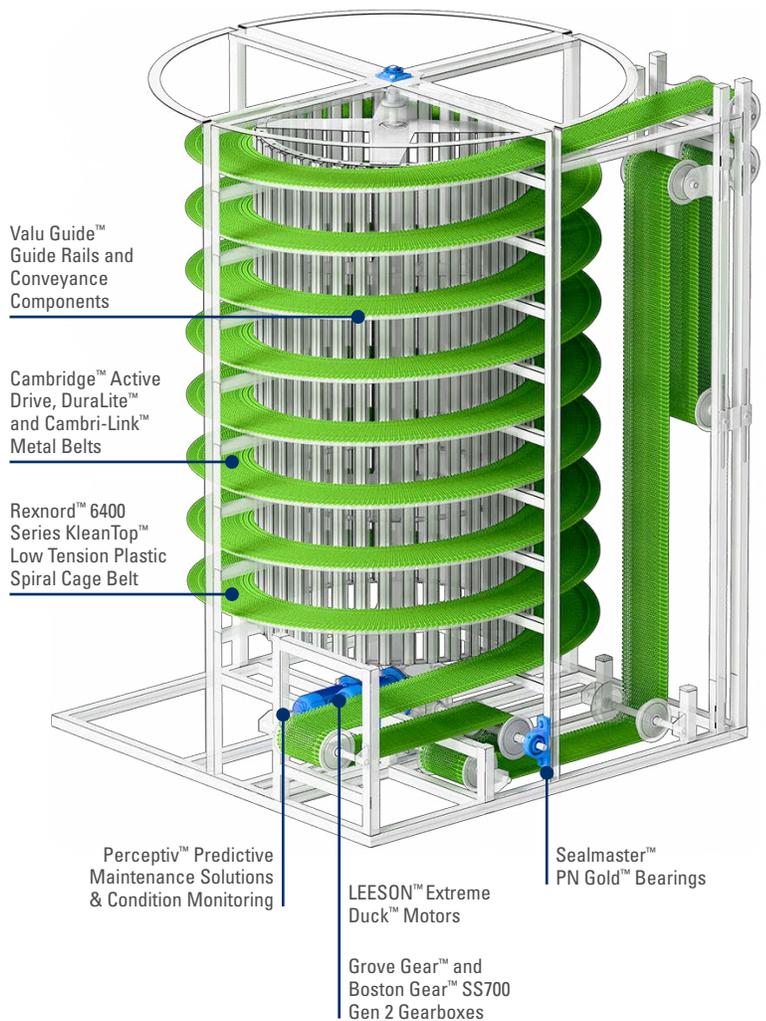

**KEEP YOUR SPIRALS RUNNING AT
PEAK PERFORMANCE**

*A Powertrain Solution for Demanding Bakery
Environments*

Spiral conveyors are one of the most critical applications on a bakery processing line. These applications must maintain consistent product flow while operating continuously in demanding production environments. Excessive load, fluctuating temperatures, and constant run time can accelerate wear, leading to unexpected failures and costly downtime.

Regal Rexnord's spiral solution integrates reliable powertrain components engineered specifically for these intense conditions. Our configuration reduces failures by up to 90%, extends component life up to 3x, and eliminates waste during repairs all while improving energy efficiency and enabling predictive maintenance alerts that help avoid unplanned downtime incidents. This total solution can deliver more than **one million dollars** in quantified impact over a five year period for a single spiral, with even greater value when deployed across multiple lines.

*The cost-saving percentages and dollar values presented are derived from the average savings reported by customers. Regal Rexnord makes no representations or warranties, express or implied, as to the guarantee of achieving similar savings.

Spiral Conveyor

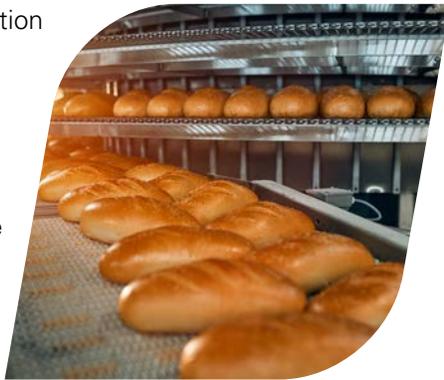

BOOST EFFICIENCY WITH DURABLE SPIRAL CAGE SYSTEMS THAT KEEP OPERATIONS RUNNING

COMPLETE INDUSTRY SOLUTIONS

Regal Rexnord's industry-leading product portfolio of conveying chains and components, gearing, bearing motors and remote monitoring solutions provide food manufacturers with the tools they need to enhance their line, simplify adherence to rigorous industry standards and achieve cost-competitiveness. Discover what makes Regal Rexnord a trusted advisor to leading food manufacturers, and how our solutions cater to a variety of different application needs.

GAIN CONTROL OF YOUR TIME

Are you challenged to meet daily production requirements, while at the same time responding to corporate objectives? This is no simple task, and you are not alone. Regal Rexnord's Application Conveyor Experts have worked with many companies over the years to make the complex simple with Gap Walk Consultations. This complimentary line audit is a 3-step process to help you solve your conveying challenges.

Industry-Best Product Portfolio

- Conveying chains and belts
- Conveyor components
- Gearing
- Motors
- Bearings
- Predictive maintenance monitoring

Trusted Experts in Critical Applications

- Tunnel Ovens
- Spiral Proofer
- Spiral Cooler
- From-To Conveying
- Package Handling

You have challenges.
We have solutions.

To solve your critical challenges, it is essential to partner with a **global company** with **local resources**, **reputable brands**, and a **proven history** of delivering cost-efficient solutions.

**SIMPLIFIED
SUPPLY CHAIN**

**TRUSTED
ADVISOR**

**APPLICATION
ENGINEERING**

**GLOBAL
PRESENCE**

**CONTINUOUS
INNOVATION**
