RegalRexnord™

Forklift & Lift Truck Solutions

DRIVING EFFICIENCY, RELIABILITY, AND UPTIME

MATERIAL HANDLING & LIFT TRUCK INDUSTRY SOLUTIONS

Material handling applications are no stranger to requiring proven, dependable solutions. Regal Rexnord brings more than 125 years of experience to solving the most prominent challenges faced across forklift and lift truck operations. From high-cycle warehouse forklifts and narrow-aisle trucks to heavy-duty outdoor equipment and utility vehicles, our team works alongside you to deliver the right combination of components and powertrain solutions for every application.

With decades of experience across every class of lift truck, we understand the complexities of these systems – from complex drivetrains to steering mechanisms and load handling components. Our team of experts collaborate closely with you to troubleshoot performance challenges, share application insights, and identify opportunities to improve your operations uptime, efficiency, and overall equipment performance. From initial design and sourcing to installation, implementation, and continued support, Regal Rexnord helps you tackle industry challenges with reliability and the confidence to move forward.

REGAL REXNORD

MISSION

Regal Rexnord is committed to creating a better tomorrow with sustainable solutions that power, transit and control motion. For us, this means creating innovations that focus on both customer needs and our commitment to sustainability.

Regal Rexnord provides solutions that help our customers increase their productivity by maximizing efficiency. By enhancing the output of power transmission systems through reliable components, we significantly reduce downtime due to component failure. Our industry expertise focuses on the development of highly-reliable and practical solutions that improve overall productivity and output. This approach ensures our customers benefit from increased uptime while simplifying overall system design.

Forklift & Lift Truck Industry Solutions

RELIABLE POWER TRANSMISSION & MOTION SOLUTIONS FOR LIFT TRUCK APPLICATIONS

Within demanding environments, reliable motion and power transmission are critical for maintaining uptime, safety, and productivity. Regal Rexnord delivers highly engineered solutions designed to perform under heavy loads, constant cycling, shock and vibration, and exposure to harsh indoor and outdoor conditions.

Our portfolio spans the entire system – from CENTA® couplings that provide robust vibration-dampening performance in hydrostatic drives to Rex® chain solutions. Additionally, advanced bearing solutions from Duralon™ and McGill® offer self-lubricating and dependable operation in high-load, oscillating environments.

For critical safety and control, Warner Electric® braking solutions provide reliable stopping, holding, and parking performance with customizable configurations tailored to electrified lift truck systems. Complementing all of these technologies, Regal Rexnord supports evolving equipment designs with solutions built for electric and hybrid platforms, helping improve energy efficiency and preparing your operation for the future.

Our components are designed to extend service life, simplify installation and maintenance, and minimize downtime. Backed by application expertise, global engineering support, and a portfolio of trusted brands, Regal Rexnord delivers integrated solutions that keep lift trucks operating smoothly.

Regal Rexnord™ Products	Electric Counterbalance Rider Trucks Class 1	Electric Narrow Aisle Trucks Class 2	Electric Hand Trucks Class 3	Internal Combustion Engine Class 4/5	Tow Tractors Class 6	Telehandlers Class 7	AWP- Scissor & Boom Lifts	AGV/AMR

RUGGED POWER. PROVEN PERFORMANCE.

THAT'S THE REGAL REXNORD WAY.

At Regal Rexnord, we are committed to creating a better tomorrow through continuous innovation, sustainability, and customer success

As a global leader in highly engineered motion control systems, air moving solutions, and power transmission components we offer sustainable, innovative solutions that ensure efficiency, reliability, and performance.

Integrity, responsibility, and a passion to win is the foundation of who we are. We value our associates, creating a diverse, engaged, and inclusive work environment that drives innovation and excellence. As your trusted advisor we offer unparalleled expertise and support, helping to unlock peak performance and build stronger businesses. Whether through cutting-edge technology or comprehensive service offerings, Regal Rexnord is proud to be a reliable partner in your progress.

We have deliberately curated our portfolio to better serve the evolving needs of our customers and stakeholders through the merger of Regal Beloit and Rexnord PMC, as well as the acquisition of Altra Industrial Motion. Our broad portfolio of components and condition monitoring solutions empower customers to build smarter factories, improve operational efficiency, and lead the future of manufacturing.

With a global presence and decades of deep industry expertise, Regal Rexnord is uniquely positioned to provide comprehensive, integrated solutions that enhance performance at every level. From design and sourcing to installation and condition monitoring, our expert teams are dedicated to optimizing your operations and supporting your long-term success.

Together through innovation, collaboration, and a shared vision for a brighter future, **we create a better tomorrow.**
