

Turf & Garden Industry Solutions

KEEPING EQUIPMENT MOVING
THROUGH EVERY SEASON

REGAL REXNORD **MISSION**

Regal Rexnord is committed to creating a better tomorrow with sustainable solutions that power, transmit and control motion. For us, this means creating innovative solutions that focus on both customer needs and our commitment to sustainability.

In the turf and garden industry, equipment performance is measured by every acre covered, every job completed, and every season in service. Our engineered powertrain and motion solutions help manufacturers improve uptime, increase efficiency, and deliver equipment that performs when it matters most.

TURF & GARDEN INDUSTRY SOLUTIONS

Turf and garden equipment needs to thrive in a variety of outdoor environments that require reliable and high-performing components to withstand constant vibration, exposure to the elements, and seasonal operating demands. Regal Rexnord brings decades of application expertise to helping OEMs, engineers, and end users address the challenges associated with residential and commercial mowers, zero-turn radius (ZTR) equipment, utility vehicles, and other outdoor power equipment. Through a diverse portfolio of bearings, clutch/brake systems, electric linear actuators, and power transmission solutions, we can provide dependable performance across the wide range of these applications.

With our range of experience throughout the outdoor power equipment industry, we understand the importance of reliable blade control, precise motion, durable bearings, and efficient power transmission in their role toward overall equipment success. Our teams work closely with customers to solve difficult application challenges, support new and exciting designs, and identify opportunities to enhance equipment durability. From concept development and engineering collaboration through manufacturing support and ongoing service, Regal Rexnord delivers the expertise, innovation, and trusted solutions needed to keep your outdoor power equipment performing at its best.

Turf & Garden Solutions

RELIABLE POWER TRANSMISSION & MOTION SOLUTIONS FOR TURF & GARDEN APPLICATIONS

Today's turf and garden equipment benefits heavily from reliable motion control and power transmission solutions that can deliver performance, productivity, and operator confidence. Regal Rexnord provides highly engineered solutions that are designed to withstand demanding outdoor challenges, including exposure to dirt, moisture, vibration, shock loads, and continuous operation through a variety of seasonal changes for a broad range of commercial and residential equipment.

Our portfolio is comprised of critical equipment systems from brands like Warner Electric™ with their clutch/brake solutions that enable dependable blade engagement, to Thomson™ Electrak™ linear actuators that provide precise electric motion for mower deck positioning and other adjustable equipment functions. Complementing these industry-leading solutions are mounted and unmounted bearings from Rex™, Link-Belt™, Sealmaster™, Rollway™, Duralon™, and Kilian™, which deliver reliable performance across all varieties of rotating assemblies and other high-wear applications. Additionally, Rex chain helps support efficient and dependable power transmission throughout your equipment drivetrains.

All of our components are designed to enhance durability, simplify maintenance, and support the evolving landscape that the future of turf and garden equipment is up against. Backed by application expertise, engineering support, and a portfolio of trusted brands, Regal Rexnord delivers these integrated solutions to keep your turf and garden equipment operating at its best, season after season.

At Regal Rexnord, we are committed to creating a better tomorrow through continuous innovation, sustainability, and customer success

As a global leader in highly engineered motion control systems, air moving solutions, and power transmission components we offer sustainable, innovative solutions that ensure efficiency, reliability, and performance.

Integrity, responsibility, and a passion to win is the foundation of who we are. We value our associates, creating a diverse, engaged, and inclusive work environment that drives innovation and excellence. As your trusted advisor we offer unparalleled expertise and support, helping to unlock peak performance and build stronger businesses. Whether through cutting-edge technology or comprehensive service offerings, Regal Rexnord is proud to be a reliable partner in your progress.

We have deliberately curated our portfolio to better serve the evolving needs of our customers and stakeholders through the merger of Regal Beloit and Rexnord PMC, as well as the acquisition of Altra Industrial Motion. Our broad

portfolio of components and condition monitoring solutions empower customers to build smarter factories, improve operational efficiency, and lead the future of manufacturing.

With a global presence and decades of deep industry expertise, Regal Rexnord is uniquely positioned to provide comprehensive, integrated solutions that enhance performance at every level. From design and sourcing to installation and condition monitoring, our expert teams are dedicated to optimizing your operations and supporting your long-term success.

Together through innovation, collaboration, and a shared vision for a brighter future, **we create a better tomorrow.**
