\$5,000-10,000

**DAILY LOSS OF VESSEL
USE AVOIDED**

The cost-saving percentages and dollar values presented are derived from the average savings reported by customers. Regal Rexnord makes no representations or warranties, express or implied, as to the guarantee of achieving similar savings.

MAXIMIZE YOUR DRIVETRAIN'S POTENTIAL

Poor component choices can lead to \$150,000 or more of avoidable maintenance and \$5,000-10,000 daily loss of vessel use.

By utilizing a best-in-class product portfolio, Regal Rexnord's in-house torsional experts select, design, assemble, and ship fully integrated, torsionally compliant driveline packages that reduce component wear, noise, and vibration. Regal Rexnord helps ensure your vessel's propulsion system operates at peak performance, delivering optimal reliability throughout its service life. Choosing the right components from the start reduces unexpected maintenance costs and prevents costly downtime for vessel owners. Partner with Regal Rexnord early in the design process to optimize your vessel and drivetrain for performance, durability, and the demanding conditions of the marine industry.

PROPELLER-DRIVEN MAIN PROPULSION SOLUTIONS

FULLY INTEGRATED ENGINEERED SOLUTIONS

Regal Rexnord's industry-leading portfolio of couplings, clutches, brakes, and shafting allows for fully-integrated, engineered solutions, minimizing components and optimizing space utilization. Our engineers deploy cutting-edge engineering capabilities and torsional vibration analysis (TVA) to design highly efficient solutions that decrease noise, optimize space, and reduce the number of necessary components. This approach reduces the risks of relying on individual suppliers for assembly, ensuring cohesive functionality. It also minimizes the chances of design inefficiencies or incompatible product combinations.

Regal Rexnord brands can supply products to meet the requirements of marine societies including:

Industry-Best Product Portfolio

- Brakes
- Clutches
- Controls & Power Supplies
- Couplings
- Driveshaft Solutions
- Limit Switches
- Locking Devices
- 2in1 Clutch Couplings
- Turning, Locking, Braking Systems

Trusted Experts in Critical Applications

- Propulsion (Propellers, Waterjets, Pods & Thrusters, Hybrid)
- Pumps, Compressors, & Auxiliary Drives
- Dredging
- Cranes
- Winches
- Jack-Ups

You have challenges.
We have solutions.

To solve your critical challenges, it is essential to partner with a **global company** with **local resources**, **reputable brands**, and a **proven history** of delivering cost-efficient solutions.
