YOUR POWERTRAIN PARTNER — FROM DESIGN TO PERFORMANCE

An industrial powertrain is the system of components, such as a motor, gearbox, bearings, couplings, and more, that work together to power, transmit, and control mechanical power in wastewater equipment.

Our specialized team can install, commission and support the powertrain systems that we engineer and build — delivering peak performance, reduced downtime, increased longevity, and peace of mind.

COMPREHENSIVE SERVICES TO KEEP YOU MOVING

Our team is with you every step of the way:

1. INSTALLATION SERVICES

- Install and perform precision setup of complete new high-efficiency Regal Rexnord powertrain assembly
- Perform alignment, torquing, and configuration by factory-trained experts
- Ensure compliance with safety and performance standards

2. COMMISSIONING

- Perform full system checks and performance validation
- Complete load testing and fine-tune for application-specific needs
- Integrate with control systems and diagnostics platforms
- Ensure all components are operating at peak efficiency

3. TROUBLESHOOTING & REPAIR SERVICES

- Provide rapid-response, on-site services to diagnose and perform root cause analysis
- Repair critical issues

4. TRAINING & KNOWLEDGE TRANSFER SERVICES

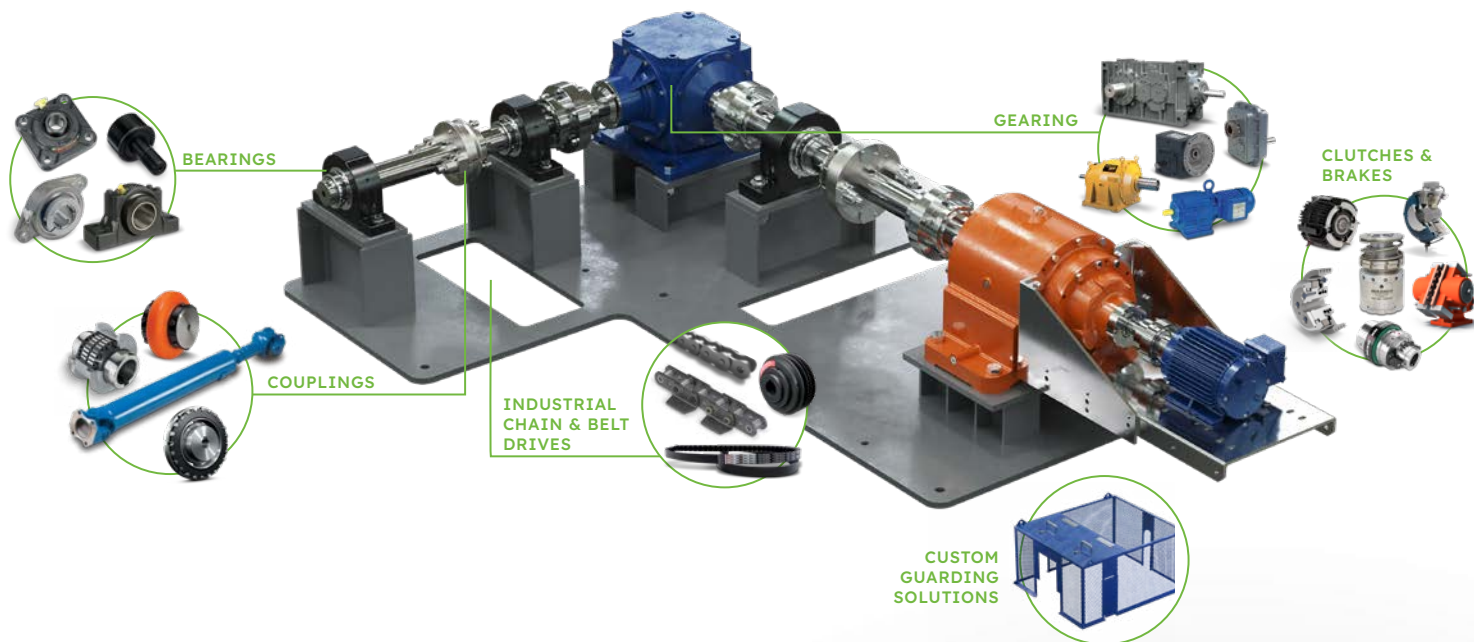

- Train customer staff on proper operation and maintenance for powertrain systems identifying key parameters to monitor and indicators of when these parameters require attention

5. WARRANTY SUPPORT

- Provide prompt, comprehensive warranty support for powertrain system installations
